

# KIDS' CLEAN WATER PROJECT

## RESOURCE OVERVIEW

Thank you for your interest in Filter of Hope's Kids' Clean Water Project (KCWP)! Your kids will learn about the global water crisis and how kids around the world—kids just like them—are so desperate for clean water. They will also learn about the Filter of Hope water filter that is saving lives all around the globe everyday.

### KCWP: CHURCH CURRICULUM

The Kids' Clean Water Project provides you with stories, video teaching links, and hands-on learning activities. There's also a daily "Kid Challenge" home activity for the whole family to help kids understand life without clean water.

They'll also learn how the filter can help explain the gospel.

### KCWP: ACTIVITY BOOK

Help kids develop more understanding of the water crisis and the water filter solutions. The coloring pages, puzzles, and learning activities will all

serve to reinforce compassion and action in kids.

### KCWP: AT HOME CURRICULUM

Parents can do their own home-based KCWP with this "at home" version. Watch additional video links and read along books. Great for homeschoolers. Families can fundraise to share filters and the gospel with families in need.

### KCWP: AT HOME RESOURCE KIT

Kids can learn more about water filters and helping those who need clean water. They'll learn more about the filters and how they work.

### MORE RESOURCES

### KIDS' CLEAN WATER PROJECT KIT

This kit is free to churches that schedule a Kids' Clean Water Project. It includes the filter kit, a bucket, two water bottles, and wristbands for every child and volunteer. Request your free kit by emailing [info@filterofhope.org](mailto:info@filterofhope.org).

### KCWP: LEADER TRAINING VIDEO

Learn how to lead the KCWP with your kids and how to motivate them to make a difference by raising money for filters.
